To whom it may concern:

I had the pleasure of watching David Gouthro conduct a critical presentation in a very thoughtful and humorous manner. David's presentation, entitled "The Courage To Train", was delivered to a group of Sheriff trainers on the final day of a curriculum design and presentation workshop and was the highlight of a very successful program.

David used a unique style of experience, audience participation and humour that thoroughly captivated the audience for the entire presentation. I know David had hit the mark in his presentation when the students reflected on some of their own experiences and stated how they plan to take a different approach based on the presentation. The group was, to a person, enthusiastic and engaged as they completed the program. I look forward to their contributions to our training program.

I would like to take this opportunity to recommend David Gouthro and The Consulting Edge to anyone who has an interest in developing the best in trainers through humour and insight.
